

GEOLOGY PARTY OFF FRIDAY

Dr. E. R. Branson Conducts Tour of West Made in Autos.

Nine men, including Dr. E. R. Branson, chairman of the geology department, will leave Friday morning on a traveling geology field trip. They will go to Kansas City and then west through Kansas, Colorado, New Mexico, Arizona and possibly California. During the course of their trip they will visit the Grand Canyon, the Painted Desert, the Petrified Forest, and other interesting geological formations in the West and Southwest.

The trip will be made in two Ford cars, which have been purchased especially for the journey.

Prof. L. A. Kye, of the geology department at Colorado College, Colorado Springs, will be one of the members of the trip, and Robert Hoffman, a graduate student from Harvard University, another.

In addition to these, six students of the University will comprise the party. They are: C. L. (Chuck) Lewis, James S. Williams, Lester Bailey, George Wieda and Irl W. Brown.

The party will return about September 1.

WILL ATTEND CONFERENCE

Annual Epworth League Meeting to Be Held This Week.

The annual conference of the Epworth leagues in Fayette district are to be held at Fayette Thursday and Friday. Those from the Broadway Methodist Church who will attend are Miss Lev-Ellen Gilman, Miss Ruth Rusk, Miss Bernice Jennings, Miss Bernice Irwin, Miss Dalton, Miss Ida Belle Warden, Miss Margaret McMillan, Miss Blanche Longshore, R. J. Saville, Soon Ahn, J. W. White, Joe Stephens and Mrs. F. F. Stephens. They will leave in automobiles at noon Thursday, while Miss Frances Grindstead, Miss Elizabeth Grindstead, Hiram Curry and Justice Tyler will leave Columbia in time to reach Fayette for the evening service.

Members of the Columbia leagues who will appear on the program are J. W. White, Miss Ruth Rusk, Miss Bernice Irwin and W. E. Crowe. Mr. Crowe is vice-president of the Missouri conference of the Epworth League.

The delegates from Columbia will return home after the last meeting Friday afternoon.

A DECREASE IN ROOM RENT

Plenty of Places Available for Students This Summer.

Although the demand is not expected to be as large as in the winter, rooms for the summer term will be listed at the offices of the Commercial Club. Nearly one hundred rooms have already been listed, and it is not believed that many additional rooms will be needed, since the majority of students coming here for the summer term have made reservations for rooms through friends attending the spring term or acquaintances in the city.

At the present time, the rooming situation in Columbia is better than it has been for several years. There has been a marked decrease in the price of room rent, and the price of light-housekeeping rooms is also about 25 per cent less than it has been for some time.

FLAG SMUT KILLING WHEAT

Farmers in Madison County Will Call Conference.

According to Alfred Raut, adviser for the Madison County Farm Bureau, about 2,500 acres of what has been the best wheat land near Granite City in Madison County may not be planted for the next two years.

It is reported that flag smut is increasing at an alarming rate in the fields. The only remedy for it is to discontinue planting. A recent survey showed that 111 farms in an area of 47 square miles are affected.

A conference of the farmers owning these farms is to be called. They will probably decide upon some definite plan of action.

Charles D. Haney Marries.

Charles D. Haney of Columbia, and Miss Sallie Barnes of Guthrie, were married at 8 o'clock last night by the Rev. W. S. St. Clair at his residence, 512 Dyar street. They were attended by C. H. Paris and Miss Nellie Roberts. Mr. Haney is a son of Mr. and Mrs. William Haney and his bride is a daughter of Mr. and Mrs. Alex Barnes. Mr. and Mrs. Haney will make their home in Columbia.

TODAY LONGEST DAY

OF YEAR BUT LASTS

ONLY USUAL 24 HOURS

Professors, students and astronomers are all agreed upon one subject, that today is the longest day of the year. As might be thought by many this is not the longest day because it is the last day of the school year for many students and professors but because the duration of sunlight is longer today than on any other day of the year. The sun reaches its farthest point north today and is "heading south" tomorrow.

The sun rose at 4:43 o'clock this morning and will not set this evening until 7:38, making a total of fourteen hours and fifty-five minutes of sunshine for the entire day. The sun reaches the summer solstice this afternoon at 5:30 o'clock.

Yesterday and tomorrow lack but a few seconds of being as long as today and some people hold these three days are of the same duration, but according to R. H. Baker, professor of astronomy, and George Reeder, weather man, today is the longest by a few seconds.

ANOTHER BOX TO PUEBLO

Red Cross Wants Donations of Children's Clothing.

The last box of clothing for the Pueblo flood relief was sent by the Red Cross last night along with the \$28 that has been given to the fund. Altogether about 1,000 pounds of clothing have been sent.

Miss Dorothy Broeffle said today that, though the people of Columbia had responded generously to the request for clothing, very few things for children had been sent. There is now in Pueblo, she continued, a great immediate call for summer garments for children. Because of this, Miss Broeffle is appealing to the different church societies, missionary societies, and other such organizations, as well as to the women of Columbia individually, to buy unbleached muslin or other inexpensive material and make children's summer clothing to send the flood refugees.

VOCATIONAL WIVES INVITED

It Is Hoped All Will Attend Party Thursday Afternoon.

The party for the wives of the seventy-six vocational students in the University will be given from 4 to 6 o'clock, Thursday afternoon, on the courthouse lawn. This party is being given by the Boone County Red Cross Chapter to enable the vocational students' wives to get acquainted with one another.

The Red Cross members are especially anxious that the wife of every vocational student here should come. If any fails to get an invitation it is because the Red Cross was unable to obtain her address. "Babies are especially invited," Miss Dorothy Broeffle said.

A program of music has been prepared by the hostesses, and refreshments will be served.

L. S. PALMER VISITING HERE

Attended Funeral of His Sister-in-Law, Mrs. R. C. Palmer.

Leroy S. Palmer, formerly an instructor in the College of Agriculture here and now a professor in the dairy department of the University of Minnesota, at Minneapolis, is in Columbia for a short visit with friends.

Mr. Palmer came here from St. Louis where he attended the funeral of his brother's wife, who died at Festus, Mo., at the home of her parents, Mr. and Mrs. Oscar Ogle. She was ill several months of influenza followed by an acute attack of heart disease. Her husband, R. C. Palmer, was graduated from the School of Engineering in 1909 and for several years has been with the Newport Company, Pensacola, Fla.

J. T. HUNT GOES TO EUROPE

Former Missouri Student Is With Harvard Glee Club.

Joseph T. Hunt, A. B. '20, who has been a student in Harvard University the past year, has sailed for Europe as a member of the Harvard Glee Club, which will give concerts in a number of the principal European cities this summer. Mr. Hunt will remain in England after the club has concluded its engagements to attend Oxford University as a Rhodes scholar from Arkansas. His home is in Fort Smith, Ark.

VOCATIONAL STUDENTS PAID

Total of \$31,250 Received Today by Men in School.

Vocational students in the University received their monthly allowances from the government today, a total of \$31,250 being paid out. Of the 250 men enrolled, twenty-five have already completed their school work for the year. Twenty-five more are leaving this week.

The highest allowances are paid to married men with families, and range as high as \$170. The average allowance is \$125, and the minimum is \$100 a month.

Library Receives Book on Bananas.

The United Fruit Co., whose general offices are in Boston, has sent as a gift to the University, a paper bound book, on the "Story of the Banana." The little book is full of illustrations on the culture of the banana, its use and habitat. So attractive is the book, and so useful, that H. O. Severance, university librarian, has written the publishers asking that they send another copy to be used in the University Elementary School.

Leaving Columbia Tomorrow.

Mr. and Mrs. William F. Knox and children, Elizabeth, William, Jr., and Robert DeWitt left today for Springfield where Mrs. Knox and the children will visit for a month before joining Mr. Knox in St. Charles, Mo. Mr. Knox will be superintendent of schools there next year. He was principal of the University High School last year and received his master's degree from the University.

H. F. Major Returns From Chicago.

H. F. Major returned last night from a business trip to Chicago. He attended a meeting of the Foreign Relations Committee of the American Farm Bureau Federation. On his way to Chicago, Mr. Major stopped in Champaign for the commencement exercises at the University of Illinois.

Prof. Hedrick Receives Appointment.

Prof. E. R. Hedrick, of the mathematics department, has been appointed a member of the Council on the Division of Physical Sciences of the National Academy of Sciences. He is now making a lecture tour through the Southwest in the interest of the National Committee on Mathematical Requirements.

Five Cars of Stock Shipped Today.

Two cars of hogs were shipped by the Columbia Shipping Association yesterday. Today, the Columbia Shipping Association shipped one car of hogs, one car of sheep and mules and one car of sheep. J. N. Howell and A. J. Estes also shipped a car of hogs and a car of sheep to St. Louis today.

Roy Davis on Business Trip.

Roy T. Davis, secretary of Stephens College, will leave tonight on an extended business trip for the college through Southern Missouri, Kentucky and Illinois.

Fill your Fountain Pen with

Stafford's Ink and forget it.

No fussing with your fountain pen when it's loaded with brilliant Stafford's Fountain Pen Ink.

A uniform, steady flow always on tap.

It never sticks, gums or clogs the pen-point or barrel.

The secret is in the chemical formula which has made Stafford's famous as

"The Ink that Absorbs Moisture from the Air."

Your fountain pen is a delicately adjusted instrument. Most inks are too heavy, too syrupy to flow smoothly through the point escapement. Stafford's Fountain Pen Ink is made for just that particular purpose. Most every stationer sells it.
